Existence of Cabinet and Position of Premier Threatened by Agitation in Russia.

(BY ATLANTIC CABLE AND A. P.)

PETROGRAD, Sept. 23.—The Korniloff ministry, arising out of the recent revolt, has developed dimensions which threaten the existence of the Cabinet, particularly the position of Premier Kerensky. The newspapers representing the left and right parties demand an explanation from the government, while the Bolshevik organs openly accuse the Premier. In the words of the Nabotchi Post of being in a conspiracy with Korniloff to crush the Petrograd proletariat and the Workmen's and Soldiers' Delegates with the help of cavalry corps sent against Petrograd.

The newspaper asks why, if the published documents are forged, no denial has been issued. The Bolshevik group in the bureau of the Central Workmen's and Soldiers' Delegates has carried by an overwhelming majority a resolution demanding an explanation. SENSATION OF DAY. GERMANS USE CANNON TO STAY BRITISH DRIVE.

Haig Gains All but Few Objectives and Takes Over Three Thousand Prisoners.

(BY A. P. NIGHT WIRE.)

IN NONE of the battle areas of Europe has there been any marked activity in the last twenty-four hours, says the Associated Press war review. A momentary lull appears to have settled upon the fighting operations in Flanders, on the Aisne and at Verdun, and in the region along the Isonzo.

Crown Prince Rupprecht of Bavaria, finding his efforts to dislodge the British from their recently gained positions in the Ypres salient ineffectual, has ceased his infantry attacks and resorted to artillery.

ON THE WESTERN FRONT. On the rest of the western front the French and Germans have been content to bombard each other. The artillery activity is reported violent along the Aisne front and northward to Verdun in the region of Hill 204. Berlin reports reconnoitering engagements on this portion of the front, but not action of moment.

FOREIGN. Dr. Michaelis, the German Chancellor, is expected to discuss the Belgian question in the Reichstag on Thursday. Germanas continue to deport males from Belgian territory.

GERMANY DEPLORES LUXBURG BREAK.

ARGENTINA'S DECLARATION OF WAR DELAYED.

Message from Berlin declares Kaiser absolutely disapproved of conduct of his envoys—Deputies will meet today to take definite action.

(BY ATLANTIC CABLE AND A. P.)

BUENOS AIRES (Argentina) Sept. 23.—Just as the Argentine Chamber of Deputies early this morning was preparing to vote on the question of breaking diplomatic relations with Germany, an official communication was received from the British Foreign Office. The note disapproved of the ideas expressed by Count von Luxburg, the German Minister here regarding Germany's "cruiser warfare."

THE word "cruiser" left some doubt in the minds of government officials as to whether Germany intended to modify her submarine campaign. A declaration of war on Germany was postponed by the receipt of the German note.

REPLY TO THE POPE PLEASES GERMANS.
BERLIN Sept. 23 (via London).—Prof. Hans Delbrueck, head of the Department of History in Berlin University, told the Associated Press yesterday that the German reply to the Pope, both in form and contents, completely reflects the wishes and sentiments of the great majority of the German people.

Body of Wealthy Woman Who Died in Jail Said to Have Exhumed Without Knowledge of Her Former Husband—Will May Be Contested.

LOUISVILLE (Ky.) Sept. 23.—The body of Mrs. Robert Worth Bingham, formerly Mrs. Henry M. Flagg, secretly was exhumed at Wilmington, N. C., shortly after midnight last Tuesday, at the instance of Mrs. Bingham's relatives, an autopsy performed in the presence of a detective of national reputation, and several physicians. Some of the vital organs were removed and sent to New York and the body presumably returned here tonight by attorneys for Judge Bingham.

SECRETARY BAKER REVIEWS SOLDIERS.
CAMP MILLS (Minoela, N. Y.) Sept. 23.—The "Rainbow Division," made up of National Guardsmen from twenty-seven States, who are to aid in making the world safe for democracy, was reviewed by Secretary of War Newton D. Baker here today. For one hour and twenty-three minutes Mr. Baker, flanked by Maj. Gen. Bliss, the new Chief of Staff of the army; Maj. Gen. W. A. Mann, commander of the division, and Maj. Gen. MacArthur, watched the 27,000 men march past. It was the first time Mr. Baker ever had seen a division of United States soldiers on review.

PREDICTS EFFECT OF GERMAN REPLY.
LONDON, Sept. 23.—The Press Association says it has reason to believe that the German reply to the Pope will certainly not call for or produce an earlier British reply to His Holiness than would otherwise have been made. It may, on the contrary, save the association, having an exactly opposite effect.

BOMBS AND MICROBES HIDDEN IN BUCHAREST.

Shameful Abuse of Confidence of the American Embassy is Exposed by Secretary Lansing.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Sept. 23.—How Germany "shamefully abused and exploited" the protection of the United States by secreting in the German Legation at Bucharest, after the American government had taken charge of Germany's affairs at the Rumanian capital, quantities of powerful explosives for bomb plots and deadly microbes, with instructions for their use in destroying horses and cattle, was revealed today by Secretary Lansing.

It was another of the series of Mr. Lansing's disclosures of German intrigue, made public without comment, in the same manner as the Von Luxburg telegrams, which have brought Germany to the verge of war with Germany, the Von Eckhardt letter from Mexico City and the Von Bernstorff telegram asking the German Foreign Office for authorization to spend \$50,000 to influence Congress.

SUSPICIOUS PARCELS. Parcels and boxes taken into the German Consulate at Bucharest with display of great precaution aroused the suspicions of the Rumanian government. In the afternoon of August 27, 1916, the evening prior to the date of Rumania's declaration of war, some of the cases were taken to the German Legation, located in a different building from the consulate. Convinced that the boxes were not taken away from the legation by the German diplomatic mission on its departure from Bucharest, the Rumanian authorities later ordered the police to find and examine their contents.

MR. ANDREWS'S REPORT. Mr. Andrews's report says: "Upon my return from the examination which resulted in the discovery of the explosives and of the box of microbes, both of which the legation servants admitted having placed in the garden, the former confidential agent of the German Minister, Dr. Bernhart, who had been left with the legation, told me that more were in the garden than had been found; that a still larger quantity had been buried in the house of the legation; and that still worse things than this box of microbes were contained in the legation, and insinuated that they would have been found even in the cabinets of dossiers which I had sealed."

THEIR IMPORTANCE. "On the other hand there can be no doubt the final object of the importation into Rumania as well as about the use to which they were assigned. The explosives and the microbes were destined to be used in Rumania, very probably in time of peace, for the purpose of assassinating the members of the German Legation, covered by their immunity, prepared in concert with the Rumanian military authorities to perpetrate on the territory of a neutral and friendly state, of plots directed against the safety of this state and against the lives of its subjects."

THE royal government makes it its duty to protest against these criminal practices, and especially against the use of the microbes, an illegal weapon and certainly worse than poison, the use of which is formally forbidden by the fourth convention of The Hague, as well as against this violation of the duties and of the law imposed upon diplomatic missions, as an exchange for the privileges which are guaranteed to them."

LATEST GERMAN ATTACKS LACK OLD-TIME DASH.

Prisoners Taken on West Front Show Morale of Troops Affected.

(BY ATLANTIC CABLE AND A. P.)

BRITISH FRONT IN FRANCE AND BELGIUM. Sept. 23.—The phase of the battle of Flanders that occurred last Thursday and which has been characterized as the battle of Menin road, was today largely a matter of history. Hard local fighting was still in progress at a point west of Gheluvelt, known as Tower Hamlets, but notwithstanding the determined efforts of the Germans to regain the ground they lost here, they were unable to dislodge the British troops.

The enemy still clung to a few desirable points on an elevated position known as Tower Hamlets, but their possession has in no way affected the general situation, as they were not vital points. Elsewhere along the front of the British offensive there has been no change in the situation. An intense artillery duel continued, but the enemy had abandoned, at least temporarily, those futile and costly counter-attacks which marked the first days of the fighting. The German military code, in the past, has taken little count of losses in men, if results could be achieved. In the present instance the German counter-attacks have not only been costly, but useless, for the British artillery has, in a majority of cases,

been the advancing columns to his and driven the survivors back in hasty retreat. How great the German losses have been it is, of course, impossible to estimate, but it can be stated definitely that they were exceedingly severe.

Prisoners say that their casualties during the last few days of the British bombardment prior to the attack, were very heavy, and especially on the night of September 11. During that night raid parties were so badly smashed that they were unable to reach the front line troops with food.

The battle of Menin road has furnished further evidence of that deterioration in the fighting qualities which has been going on in the German lines for some time. It must not be assumed from this statement that the Germans are in a demoralized state. During the last few days they have fought with great determination and skillfully, but they are not as good as they were in the first days of the fighting. The intensity of previous counter-attacks, although the Germans had known that the offensive was pending, and had time to prepare for eventualities.

In this connection a change has been noted in the attitude of the German troops.

At any rate, the bill must be effectively killed and we will have to wait until the December session. FIGHTING FOR HAPPINESS
When you get into a frame of mind that makes life seem one tiresome duty after another, with no pleasure in it, all the while you seem to be the joy out of life and you worry over things that are really not worth worrying about, then your nervous system is becoming exhausted, and you are approaching neurasthenia.
Your happiness is worth fighting for and red blood is your best ally. It is a hopeless task to try to restore your health while your blood is deficient in quantity or quality.
To build up the blood there is one remedy that has been a household word for a generation, Dr. Williams' Pink Pills for Pale People. They tone up the entire system, make the blood rich and red, strengthen the nerves, increase the appetite, put color in the cheeks and lips and drive away that unnatural tired feeling.
Dr. Williams' Medicine Co., Schenectady, N. Y., has published a book on "Nervous Disorders" which contains a chapter on neurasthenia, in which the symptoms are fully described and the correct treatment given. Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.

Santa Monica Chief Reports Shooting Accidental.
Inquest may Determine Just How it Happened.
(LOCAL CORRESPONDENCE.)
SANTA MONICA, Sept. 23.—Albert Williams, 22, of No. 1221 South Burlington avenue, Los Angeles, foreman of the blunder of the Pacific Coast Sales-book Company, J. Los Angeles, was shot and instantly killed today while hunting deer in Carbon Canyon in the Santa Monica Mountains. Just how the accident occurred has not been determined, though the Santa Monica police are inclined to believe Mr. Williams was shot accidentally by another hunter.
The arrival of the American troops in France has done much to make even stronger this confidence. Everywhere the old-timers at the front are talking about the hope of success in the western theater. The thing they are most interested in is the fighting power of the Allies in the west and that the combination will be invincible.
It is reported that the British battalions that captured Shrewsbury forest and Fulgur wood, to the east of the town of Shrewsbury, England, experienced a new kind of German frightfulness. The advancing troops are said to have been fired on from the forest. The British bullets set the men's clothing alight and in several instances, according to the reports, the men were wounded. The men had to be rolled in the mud by their comrades to extinguish the flames.

Glendora Men Camp out at Their Shooting Range and Adopt Military Tactics.
(LOCAL CORRESPONDENCE.)
GLENORA, Sept. 23.—The Glendora Home Guards, comprising eighty-four uniformed and well-equipped men under Capt. E. A. Gleaser, marched in a body to their shooting range in the Big Dalton Canyon and camped over Sunday. Pickets and patrols were thrown out after the fashion of the regular army so as to give the men some notion of what it means to be a soldier in war time. Most of today was spent in target practice and drilling, in which the men have made marked progress since organizing several months ago.
The Glendora Home Guards form a part of the battalion recently organized with Capt. R. A. Gleaser as acting major. The rest comprises men from the Pomona, La Brea, San Dimas, West Covina and Baldwin Park. Sheriff John C. Cline was present at the first drill given at Pomona some two weeks ago and paid the men a high compliment for the proficiency shown in drilling, in which the men have made marked progress since organizing several months ago.

McKITTRICK, Sept. 23.—Operators interested in the development of the McKittrick, Belridge and Lost Hills fields, impressed by the new flowing well which came in suddenly in the Standard Oil field, northwest of McKittrick, visited the well, and were struck by the unusually fine quality of the oil, which is of 40 gravity. The well, after its "blow-out," is still receiving the attention of the drilling crew, and is expected in a few days to resume production of about 100 in currency and several hundred in checks were overlooked.
SEARCH FOR BODY.
Details of the drowning of Philip T. Wade, second-class seaman, of the crew of the tender Chryseis, anchored off San Pedro, yesterday, were taken up by the local police. The local police were asked to notify J. A. Logan, lieutenant-commander of the Chryseis, if the body was washed up at Long Beach.
Young Wade was but 19 years of age and resided in Chryseis, Wyo. While cruising in one of the government launches before yesterday off the breakwater the engine stalled. It is understood that there was no officer aboard, so while the other members of the crew were repairing the engine Wade decided to take a swim. He took one dip and then went overboard a second time and never came up. Prompt efforts to recover the body proved fruitless. The police of the neighboring beaches have been asked to watch for the corpse of the sailor, who was described as being 5 feet 7 inches tall, weighing 160 pounds and having blue eyes and brown hair.

California Man Injured by Fall from Train Near Salem, Or.

(DIRECT WIRE—EXCLUSIVE DISPATCH.)

CAMP LEWIS (American Lake, Wash.) Sept. 23.—

What is believed to be the only accident attendant on the transportation of nearly 5000 men from points in California and Oregon to the cantonment here was reported to Capt. Welby, aide to Gen. Greene, by Sheriff Needham at Salem, Or., yesterday.

Sheriff Needham's message stated that Frank Gabriel Kirsas from Sonoma county, California, was injured near Salem when he fell from a train.

He was placed in a hospital at Salem. When he recovers sufficiently to be moved, he will be brought here and placed in the base hospital.

At the morning service there were 275 trail-hitters. Most of the people were church members who went forward as a pledge of consecration; but there were also several who had no church connections.

In the afternoon the "trail-hitters" numbered 275. At night the response to the invitation brought men and women, boys and girls down the trail to shake Billy Sunday's hand and make a start in the Christian life.

MORNING SERMON.

The morning sermon was based on Jeremiah xiv: 3: "Why shouldst thou be as a mighty man that cannot save. Yet thou, O Jehovah, art in the midst of us, and we are called by Thy name."

The sermon was a strict scrutiny of the lives of many church members and professing Christians, and a setting forth of the difficulties that obstruct the growth of the church universal.

Church members were not spared the keenest of Mr. Sunday's most inclusive sentences. Down the line he went, pointing out this and that attitude, this and that action or omission, which stands as a stumbling block in the way of the sinner, and the personal responsibility of each professed follower of the Christ was strongly set forth.

"I don't care what word you use to express the fact that you are going to get to heaven," cried Billy: "It's all one to me. But if you don't get to heaven, why will you yell to hell—that's all there is to it."

"The curse of the church today is the egotistical self-contentment that keeps itself around many of its members. A lot of you don't give a

Sunday Appeals to Three Classes of People in a Powerful Plea for Converts.

THE Sunday campaign now numbers 2797 trail-hitters. Yesterday's service brought 724 people down the trail, and there were twenty responses at the meeting for women at Trinity Auditorium.

Three times great crowds assembled at the mammoth tabernacle on Grand avenue yesterday—on morning, afternoon and night. Three times Billy Sunday made his appeals to the masses of people, and the results were shown in the strings of people who wended their way down the "sawdust trail." Three separate classes of appeals were made in the morning particularly to the folk in the churches who need to consecrate their lives to service. In the afternoon to men and boys only to lead clean and upright lives, based on the religion of Jesus Christ; in the evening to a mixed assemblage, urging them to consider the question: "What shall the end be of them that obey not the gospel of God?"

At the morning service there were 275 trail-hitters. Most of the people were church members who went forward as a pledge of consecration; but there were also several who had no church connections.

FOR MEN ONLY.

The second meeting of this campaign for men only was held in the tabernacle yesterday afternoon. Probably 10,000 men and boys were assembled. The men's choir gave a lively song service preceding the sermon.

"The Devil's Boomerang" was Mr. Sunday's subject. "Be not deceived; God is not mocked; for whatever a man sows that shall he also reap," was the text. And from it Mr. Sunday preached a sermon that set secret vices and licentiousness forth in its most hideous form.

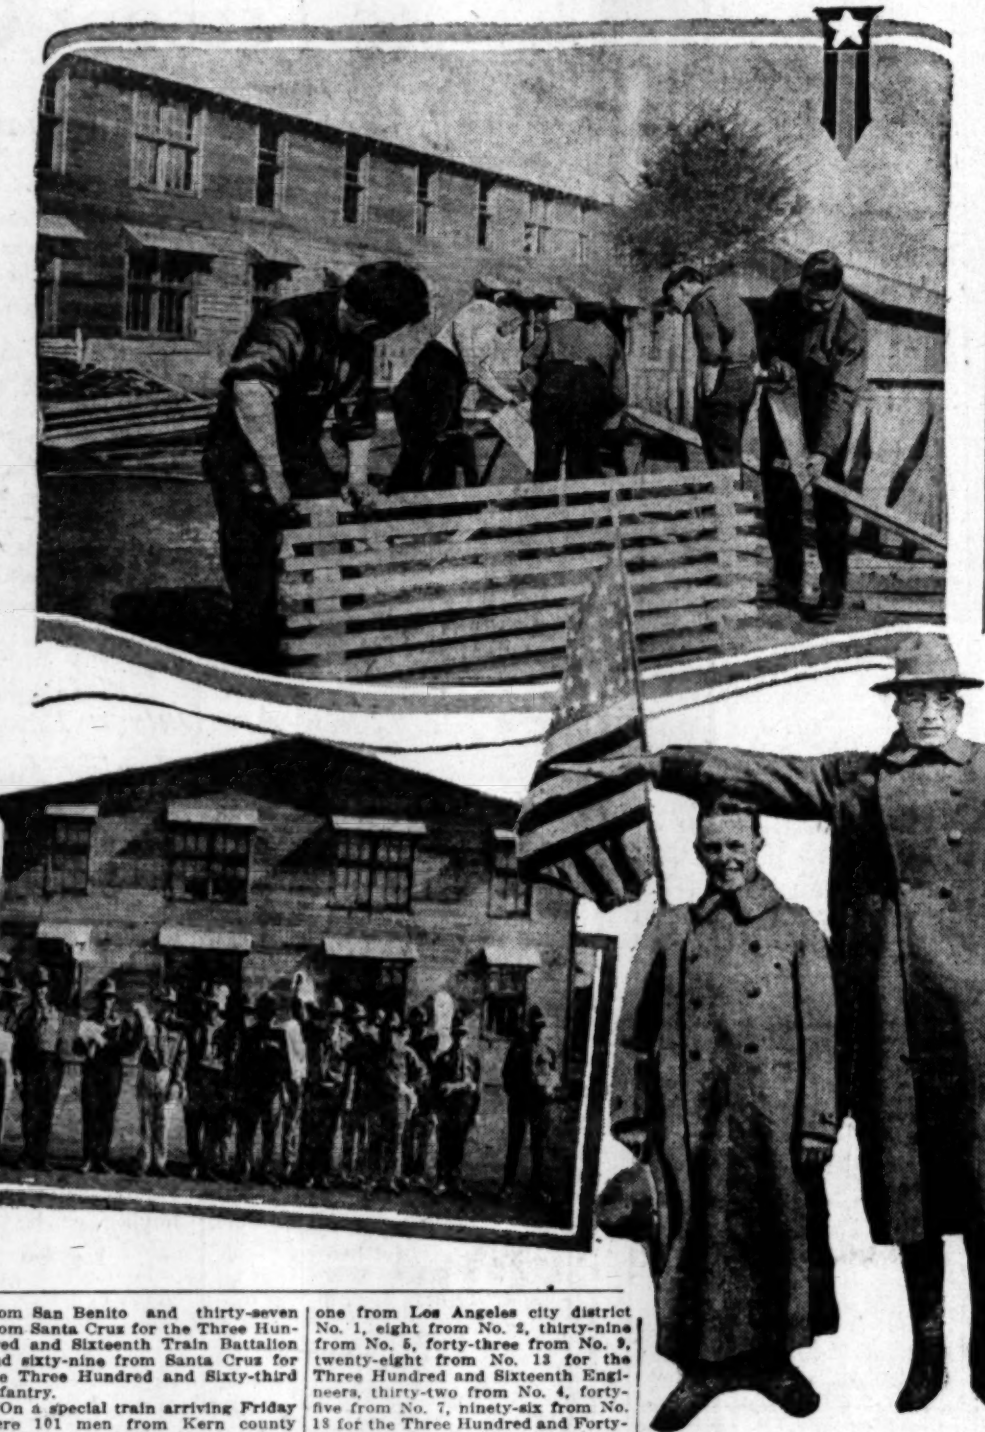

Through startling statistics gathered from official and other reliable sources, he showed the awful results, physical and moral, that follow the unclean life, and he enforced these facts with telling incident and illustration.

Then came the plea for manly determination to live wholesome, cleanly lives, "void of offense toward God and toward man," and the determination to crush out even the thoughts of unchastity. The necessity of a Christian life to uphold these resolutions was urged.

"The devil doesn't allow you to stop and think that every sin you commit is a sin weakens your power of resistance," declared the speaker. "Christian character—oh, that's your capital."

"There was a time in my life, I'm ashamed to say it, when a man wouldn't trust me to hold a yellow card on a street corner for him. By God's grace, that's all changed. "Sin is sexless. Whatever is

SEATTLE CALLS PASTOR OF LOS ANGELES CHURCH.

D. RUSSELL F. THRAPP, for the past six years pastor of the First Christian Church, Seattle, was called to the city of Los Angeles yesterday.

Eleventh and Hope streets, yesterday morning presented to his congregation his resignation, to take effect October 14.

Dr. Thropp will become pastor of the First Christian church of Seattle immediately upon leaving the Los Angeles pastorate. The Seattle church is the leading one of its denomination in the Northwest. Officers of the church began correspondence with Dr. Thropp last March.

The work of Dr. Thropp has been greatly supplemented by that of his wife, who is a prominent church singer.

It is probable that the official body of the First Christian church will take early steps to select a successor to Dr. Thropp, as it is felt that the Billy Sunday campaign stirring up the churches and increasing their membership, a permanent pastorate is required.

Robbery suspect was dressed in full field uniform of an army officer, and carried on his coat several medals and badges. Helped by his distinguished appearance, Swett, the police declare, managed to create a fine impression and escape detection with ease.

Immediately following his arrest by City Detective Berge, Swett was turned over to a deputy United States Marshal, who took him to New Orleans, where, a federal indictment by the United States grand jury was returned against him, the police say. He will be taken before United States Attorney Joseph W. Montgomery in New Orleans to be examined on the charge of impersonating an officer.

In his extensive trips throughout the country, Swett, apparently worried by sensational reports about him in the newspapers—of which he bitterly complained when brought to New Orleans—had changed greatly in appearance. His hair now is mostly gray, the reports from the place of his detention say.

The Los Angeles police will continue their efforts to obtain custody of Swett and bring him back to face the charges now pending against him, they say. A telegram sent to the New Orleans Federal authorities yesterday stated the facts in the case, and asked what measures must be taken before the prisoner can be brought back here. Detectives Shy and Hurt proceeded with their preparations for bringing the man to Los Angeles.

PASTOR DEFENDS WAR AND DEFINES PACIFISM.

IN RESENTMENT of the allegation that St. John's Episcopal Church of this city has become a "recruiting station," Dr. George Davidson, rector of that church, went into the pulpit yesterday morning and preached a powerfully patriotic sermon entitled "The Pacifist, the Patriot and the Country."

The sermon was inspired by the fact that a woman who had long been a parishioner, sent Dr. Davidson a letter Saturday, in which she withdrew her membership from the church. She stated that she was out of harmony with the spirit of the church, that had become a "recruiting station" for the army, and that Dr. Davidson's sermon was too strongly militant for her, and that she had become so active in the "People's Council of America for Democracy and Terms of Peace" that she felt bound to withdraw from the church.

GO HAND IN HAND.

"To my mind, religion and patriotism go hand in hand," said Dr. Davidson, in beginning his discourse. "Those who are loyal to their country are in a very true sense loyal to their church. I rejoice that St. John's Episcopal Church has a Red Cross auxiliary, that she has given more than twenty of her men to the cause of liberty and country."

"These facts are significant. They tell of our loyalty to home and country, and in no less degree they symbolize loyalty to Jesus Christ and the church which is His body. The spirit of God is leading us through all

ages of human history, working out His great divine purpose for man."

CHRISTIAN SERVICE.

"He uses us to accomplish His will on earth, and the soldiers and sailors of our land are today performing the truest Christian act that it is possible for them to perform. They, like their Lord, are laying down their lives for an ideal and I see in their willingness to sacrifice their lives a miniature of the one great sacrifice of Him who died that truth and justice, liberty and freedom might be established among us for all generations."

"The pacifist says he has a conscientious scruple against going forth to commit murder. He argues from the text, 'Thou shalt not kill.' But his logic is false. He knows not the meaning of war or he would not take this stand. War does not mean kill; it means conquer. The killing is incidental. So long as the two wills are opposed the killing goes on. It will stop as soon as the will of God's righteousness is established among us, and the will which rebels against His laws."

GOSPEL OF NAZARENE.

"The pacifist wishes for peace at any price, even if righteousness and justice must be sacrificed. He loves life more than liberty; he has made comfort his ideal rather than holiness. He goes up and down the streets of our cities saying that the Christian religion has failed."

"Because Jesus does not prove that this is true, Christianity has not failed. But the lifeless, bloodless, spineless gospel of pacifism has failed. More than ever as a result of this war the gospel of the Humble Nazarene is uplifted before the world as the one and the only hope of the nations of the earth."

DR. C. E. NASH.
UNIVERSALIST CHURCH.
OLD-TIME RELIGION AND SOME MODERN IMPROVEMENTS.
INSPIRING PULPIT LECTURE.
"Old-time religion is a familiar phrase to the lips of all religious agitators," said Dr. Nash in opening his sermon at the Universalist Church yesterday. "What they mean by it is never well defined, but it seems to imply two aspects: first, an emotional, ecstatic, or violent condition; second, a fixed and all religious allegiance to a certain creed, called generally 'evangelical.' The two ideas to which it is most hotly opposed are reason and progress. 'Now, as already suggested, it is probably true that some final discovery as to truth and life were made long ago and can never be outgrown or improved. These relate to fundamental righteousness and the supreme fact of God. For these we owe a permanent debt to the past, but the authority of the discoveries does not spring at all from the minds who made them, but from their essential verity. They are facts of today, as much as of any former time, and we may and do recognize them for ourselves. It is a large part of the business of religion to apply these primary truths and life principles to living men."

REV. W. R. THORP.
FIRST CONGREGATIONAL.
SOME PEOPLE IF THEY WERE FIGHTING THE DEVIL WOULD INSIST THAT WE ARE FIGHTING, WOULD INSIST THAT THE STRUGGLE SHOULD BE SETTLED BY MUTUAL CONCESSION IN THE INTERESTS OF HARMONY. This world war is not merely a misunderstanding. Germany has been nursing a passion for forty years for certain power. No concession which the rest of the world would make would have satisfied Germany except the privilege of walking on their necks and the men of England and of France said, 'We will die rather than submit to this thing.' You can tell the devil by the way he fights."

REV. CHESTER FERRIS.
PARK CONGREGATIONAL.
TO USE WHAT WE HAVE WOULD CHANGE THE CAREER OF MANY PERSONS TO POWER.
"Silver and gold have I none but what I have I give to thee," was Rev. Chester Ferris' text at Park Congregational Church yesterday. He said, "As Mr. Dooley said to Hennessy, 'there's a difference between what we want and what we need. If a millionaire would give you a barrel of flour, it's what you need. But you wanted a stovepipe hat. There's a difference between what we want and what we need.'"

REV. E. STANTON HODGINS.
FIRST UNITARIAN.
THINKS BIBLE CHRISTIANISM SOMETHING PLACE WHERE ENTREPRENEURS CAN BE PLACED.
In his sermon on "The Bible in the Light of Evolution" at the First Unitarian Church, Rev. E. Stanton Hodgins said yesterday: "It is a common thing to hear people call themselves 'Bible Christians,' to assert that the religion they believe in is the religion of the Bible, and to declare that if people would only go to the Bible for their religion, all this strife and controversy and difference of opinion that is rending the world of religion would cease. 'If people will read the Bible as the composite literature of a people in which the greatest variety of convictions are expressed instead of trying to read out of it a single scheme of salvation they can draw much inspiration and help from it.'"

DR. BROUGHER.
TEMPLE BAPTIST.
OUR MEMBERS ARE FOLLOWING IN FOOTSTEPS OF CHRIST IN SELF-SACRIFICING SERVICE FOR COUNTRY.
Dr. J. Whitcomb Broucher, of Temple Baptist Church, last night preached to a large audience a sermon of comfort and cheer to the parents and sweethearts the soldiers have left behind. "Let this thought comfort us," he said, "that our men are following in the footsteps of Jesus Christ, as they give themselves to the self-sacrificing service of their fellow men. Let us pray for our soldiers. No boy ever got beyond the reach of his mother's prayers. 'Christ saved others; himself he could not save. These were the self-sacrificing. We tried to keep out of this war, but we were finally forced into it for the good of humanity. Now that we have given our sons, let us write to them frequently and inspire them with courage to do the noblest best as followers of Christ and soldiers of their country.'"

When You Eat Too Much.
Distress in the stomach after eating is relieved by taking one of Chamberlain's Tablets. Try it the next time you eat more than you should.—(Advertisement.)

It is Not Alone What You Eat
But the Conditions Under Which You Eat
That Make for Health and Pleasure

Q Making the three meals a day count for health, happiness and real efficiency should be the aim and purpose of everyone.

Q Unfortunately, too little attention is often paid to this question of eating. Economists say that one-quarter of the income of the average American family is paid out for lodging, one-quarter for clothing and one-half for food.

Q Anything that calls for the expenditure of one-half of a family's income, certainly is worthy of serious attention.

Q That there is an enormous food waste in this country, is now pretty generally known. A tremendous effort is being made to check this enormous loss—hotels, clubs and restaurants are constantly fighting to minimize material waste, and the private family is not without its economic food problem.

Q There has never yet been devised a system for dining that is quite so economical or wholly satisfactory to the average individual as the Boos system of "Self-Service." Under this plan you do not have to pay for what somebody else eats. You select just what you like and want—be it little or much—a modest luncheon or a real banquet—and you are privileged under the Boos Bros. system to eat what you have selected under conditions which are ideal.

Q A Boos Bros. patron is assured of everything that goes to make dining what it should be. Food experts agree on the importance of pleasant surroundings and agreeable company to get the full measure of value from your food.

Q That is why we make our dining-rooms so clean and attractive to the eye; that is why we furnish such really high-class music; that is why we strive so hard to give full measure of service, and we cannot impress upon you too strongly the thought that is expressed in the display heading of this advertisement; to-wit:

"It is not alone what you eat, but the conditions under which you eat, that makes for health and pleasure."

Edison Stock is
Selling Rapidly.

Successful.
OVER A MILLION AND HALF
SUBSCRIBED.
The common capital stock of the Southern California Edison Company is selling with a rush. Up to the close of Comptroller Kemp's office last night, the total subscriptions amounted to \$1,000,000, and the company's list of stockholders had been increased by 650 new holders.

This is said to be the most remarkable stock sale that ever has taken place in the Southwest, not only as to the volume of stock purchased, but the number of people who have taken advantage of the company's offer. The above results have been obtained in eight working days.

SEALS AND ANGELS
IN DEATH STRUGGLE.

Los Angeles and San Francisco meet here tomorrow in a series of fights which may decide the flag race. Despite the big list of injuries which the Seals sustained, they could not be dislodged, and their decisive defeat of Salt Lake makes it apparent that San Francisco is the club which Los Angeles must beat if it retains its place in the sun. The Seals are now leading by three and a half games, which is a small margin with five weeks to go. The Angels, while traveling strong, are not in perfect shape for the series. Maggert is handicapped by a bad leg, and is playing largely on his nerve. Charley Hall has a sore wing, and Kennedy is still crippled. Los Angeles plans to use Erickson, his best bet, in the first game, while Killifer will probably open with Crandall.
